

The Guardian

by Varsity Water Systems

SIMPLY DEPENDABLE

MULTI-STAGE FILTRATION

Systematically reduces contaminants

SAVE MONEY & ENERGY

Real, measurable savings every year

HIGHEST QUALITY

Water that tastes great with no odor

BUILT TO LAST

Replace filters individually as needed

**Great water
created *at home!***

Not all water is created equal, and neither are all filters. **The Guardian** delivers a more thorough, multi-level filtration process to bring your water from good to great.

High quality water doesn't have to be complicated!

Meet The Guardian

by Varsity Water Systems

Fill your cup with freshly filtered water right from your faucet. Reduce contaminants at the microscopic level.

- **Easy to Maintain**
Straight forward cartridge design for simple replacement
- **Compact Design**
Easily fits in tight spaces

- **Carbon Filtration**
Pre- and Post- carbon filters to capture chemical and residual contaminants
- **Reverse Osmosis Membrane**
Filter material effective down to the molecular level
- **Dedicated Faucet**
Separate your drinking water from the water used for washing dishes
- **Made in the U.S.A.**
Homegrown construction, quality, and service

Create a strong line of defense with the *Guardian!*

Start Enjoying Today!

Purified water isn't a luxury, it's the foundation of a healthy lifestyle. Here's what you can expect after adding The Guardian to your home:

- **Ditch the bottled water** and save big on your grocery bill
- **Reduce your family's exposure** to unsafe contaminants
- **Better tasting coffee, tea, and beverages** made with water from the dedicated faucet
- **Cook with confidence** knowing your rice, pasta, soups, and more aren't absorbing contaminants
