

# The *Interceptor*

by Varsity Water Systems

## DEFENSE YOU CAN DEPEND ON

### FAST & RELIABLE

Tackles the harsh chemical issues

### IMPROVED TASTE

Reduce the foul smell and flavor

### GENTLE ON SKIN

Salt-free operation

### PROTECT YOUR HOME

High-capacity, effective delivery

## Lean, mean chlorine busting *machine!*

Chlorine is added for your protection but the benefits stop after it's time to use the water. Recruit **The Interceptor** to block the chemical and make your water more enjoyable.

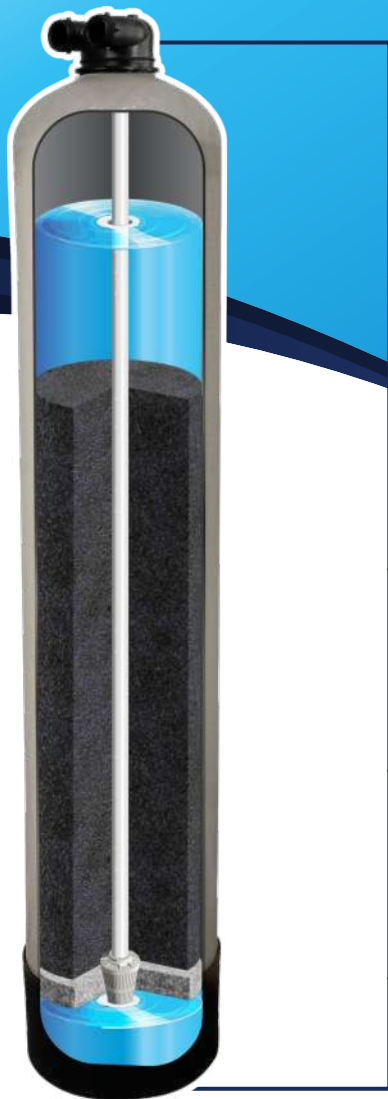

Bring fresh filtered water throughout your entire home with one simple addition.

# Meet The *Interceptor*

by Varsity Water Systems

The all natural way to eliminate chlorine from municipal water sources.

- **On-Demand Treatment**

Water simply flows through tank as needed

- **Activated Carbon**

Quickly and efficiently captures chemical additives

- **Built to Last**

High quality materials to provide years of service

- **Low Maintenance**

Design with minimal serviceable parts and no water waste

- **Made in the U.S.A.**

Homegrown quality and service

## Start Enjoying Today!

Chlorine causes water that smells like a swimming pool when you open the tap. Choosing a whole-home filter will bring the following benefits:

- **Better tasting water and beverages** straight from the faucet
- **Breathe easier during hot showers** by reducing chlorine vapors
- **Foods won't absorb the chemicals** when cooked in filtered water
- **Healthier skin and hair** without chlorine stripped away moisture
- **Protect fixtures and appliances** from chlorine eating away at rubber gaskets and seals
- **Say goodbye to faded colors** on your clothes and fabrics washed in chlorinated water

*Stop chlorine from the start with the **Interceptor!***
