Corrosion-free materials built to last with sensors to prevent leaks
- **Made in the U.S.A.**
Homegrown quality and service

Start Saving Today!

It may be difficult to tell if you have acidic water without testing, but you'll notice a big difference once it is corrected.

- **Protect the life of your pipes** by preventing corrosion thinning and the weakening of your plumbing
- **Stop blue-green staining** on sinks, tubs, and fixtures from copper deposits stripped from the pipes
- **Preserve your appliances, faucets, and fixtures** from the damage caused by aggressive water
- **Enjoy better tasting water** without the metallic flavor caused by acidity
- **Avoid expensive restoration costs** by getting ahead of water damage before leaky pipes lead to bigger issues

*Even the score against acidic water with the **Equalizer!***
